

FracSin Extract sine of a Fixed, returning a Fract

#include <FixMath.h>

Toolbox Utilities

<u>Fract</u>	FracSin (<i>arg</i>);	
<u>Fixed</u>	<i>arg</i> ;	a radian value
	returns	32-bit sine of <i>arg</i>

FracSin returns the sine of its radian argument.

arg is a 32-bit Fixed data type, expressed in radians.

Returns: a 32-bit Fract value, the sine of *arg*.
