

SIntInstall

Add a new element to the interrupt queue

#include <Devices.h>

Device Manager

OSErr **SIntInstall**(*sIntQElemPtr*, *theSlot*);
SQElemPtr *sIntQElemPtr*; address of a new element
short *theSlot* ; value of the slot number
 returns Error Code; 0=no error

SIntInstall adds a new element to the interrupt queue for a particular card slot on the bus

sIntQElemPtr points to the element being added to the interrupt queue for a given slot.

theSlot is the location on the bus where the new element is being installed

Returns: an operating system Error Code. It will be one of:

noErr	(0)	No error
slotNumErr	(-360)	invalid slot # error
