

**SetIconCacheData** Set the data associated with an icon cache

#include <Icons.h>

### **Finder Interface**

<u>OSErr</u>	<b>SetIconCacheData</b> ( <i>theCache</i> , <i>yourDataPtr</i> );
<u>Handle</u>	<i>theCache</i> ; <u>handle</u> to <u>icon cache</u>
<u>Ptr</u>	<i>yourDataPtr</i> ;      data Ptr for icon cache
	<b>returns</b> <u>Error Code</u> ; 0 = no error

**SetIconCacheData** sets the data pointer value associated with the *theCache* to *yourDataPtr*.

---

Notes: This routine is not currently documented in MPW header files (hence, it is not in any THINK C or THINK Pascal header file either). The information given above comes from Macintosh Technical Note #306. This tech. note also gives the inline glue for the call as follows:

```
pascal OSErr SetIconCacheData (Handle theCache, Ptr yourDataPtr)
    = {0x303C, 0x041A, 0xABC9};
```
