

GetSuiteLabel Specify a default label for an icon family

#include <Icons.h>

Finder Interface

<u>short</u>	GetSuiteLabel (<i>theSuite</i>);	
<u>Handle</u>	<i>theSuite</i> ;	<u>handle</u> to <u>icon family</u>
	returns	<u>short</u> ; indicates default label for <u>icon family</u>

GetSuiteLabel returns any label set previously with **SetSuiteLabel**.

Notes: This routine is not currently documented in MPW header files (hence, it is not in any THINK C or THINK Pascal header file either). The information given above comes from Macintosh Technical Note #306. This tech. note also gives the inline glue for the call as follows:

```
pascal short GetSuiteLabel (Handle theSuite )  
    = {0x303C, 0x0217, 0xABC9};
```
