

**RestoreA5**Set A5 to what it was at last call to **SetUpA5**#include <OSUtils.h>**Operating System Utilities**void           **RestoreA5()**;

**RestoreA5** should be used at the end of a routine in which **SetUpA5** was used. It simply restores the A5 register to its value at the time of that previous call to **SetUpA5**.

**Returns:** none

---

Notes: **SetupA5** and **RestoreA5** have been supplanted by **SetCurrentA5** and **SetA5**.
