

Fix2Frac

Convert a Fixed to a Fract data type

#include <FixMath.h>

Toolbox Utilities

<u>Fract</u>	Fix2Frac (<i>arg</i>);	
<u>Fixed</u>	<i>arg</i> ;	value to convert
	returns	<i>arg</i> , expressed as a <u>Fract</u> data type

Fix2Frac returns its Fixed argument, converted into a Fract data type.

arg is a 32-bit Fixed value.

Returns: a 32-bit Fract value, equivalent to *arg* to the best precision possible for the data type.
