GetTimeout   Number of seconds the system wait for a hard disk response

#include <Start.h>   **Start Manager**

        GetTimeout(_count_ **)** **;**
short   __*__ _count_ ;   value indicating length of waiting period

          returns   none

GetTimeout specifies how long the system will wait for a hard disk response.

     count is the number of seconds the system will wait on the hard disk. A zero in _count_ specifies the default limit of 15 seconds.

     Returns: none
